EXPERIENCE

Senior Software Engineer

TransparentCareer

📅 08/2021 - 10/2022 📍 Charlottesville, Virginia USA

TransparentCareer is building the next-generation career management platform for job seekers and employers.

TransparentCareer is a newly acquired part of RelishCareers.

- Created data export features that sales and marketing teams used to generate reports.
- Integrated it's features to the RelishCareers web app.
- Enabled shared accounts for users hence benefiting from both systems using the same account details.

Senior Software Engineer

RelishCareers

📅 01/2021 - 10/2022 📍 Charlottesville, Virginia USA

RelishCareers helps grad school students and alumni get discovered by employers looking for top talent

- Provided support to the legacy app.
- Built a new system based on the legacy app while improving the code quality, tests, scalability, documentation and processing speed while also adding new features resulting in reduced customer reported error complains.
- Implemented Stripe payment for the premium features like sponsored events resulting in more school sponsored events.
- Integrated 3rd party tools for event tracking which was used in making company decisions like sales or task prioritization.
- Wire-framed the designs to use for the new system resulting in a cleaner easy to use UI/UX.

Software Developer

Andela

📅 10/2016 - 12/2020 📍 Nairobi, Kenya

Andela is a global job placement network for software developers. Andela focuses on sustainable careers, connecting technologists with long-term

Through Andela partnership, I worked for 2 companies. RelishCareers and IndieGogo

- Worked on internal products.

Software Developer via Andela

Indiegogo

📅 10/2020 - 11/2020 📍 San Francisco, California USA

IndieGogo is an American crowdfunding website founded in 2008 by Danae Ringelmann, Slava Rubin, and Eric SchellIn.

- Fixed minor user interface bugs

Software Developer via Andela

RelishCareers

📅 07/2017 - 08/2020 📍 Charlottesville, Virginia USA

- Implemented requirement specs provided alongside Chiedo Labs team.
- Created background jobs to handle heavy tasks like exports hence increasing system speed.
- Built and maintained the Company web app.

SUMMARY

I'm a software engineer with over 5 years' experience in designing, building and maintaining web applications.

EDUCATION

BSc Computer Science

Egerton University

📅 09/2013 - 08/2016

SKILLS

Ruby

Ruby on Rails

React

Redux

PostgreSQL

Bitbucket

Heroku

Tailwind

Semantic UI

Stimulus JS

PROJECTS

Memory Game

🔗 <https://matching-animal-color-game.fly.dev>

A memory game for matching tiles that have the same color and animal as fast as possible.

- Learn Stimulus JS and it's limits.
- Article submission to Semaphore for publishing.
- Deployed to Fly.io

AmberScript Job Availability Bot

A bot that checks if jobs are available on AmberScript.com for transcribers

- Learn Selenium-Webdriver and how to automate browser interaction

Question Answer Platform

🔗 <https://question-answer-production.up.railway.app>

A question-answer platform inspired by PluralSight assessment page. The project uses fake data

- Deployed to railway.app
