

Marvin Kang'ethe

Personal info

Date of birth: 26/08/1994
Nationality: kenyan
Phone number: +254704272251
Email address: marvinjameskang@gmail.com
Github: <https://github.com/kang-marvin>

Professional Background

Relish Careers (
relishcareers.com)
Charlottesville
United States

Lead Software Engineer

07/2017 – present

What I do at Relish Careers

- Automate CI/CD using bitbucket pipelines to push code to heroku apps.
- Design architecture of version 2.0 of the system based on version 1.0 and company plans.
- Write clean and well-documented API for v2.0.0 of the system, plus testing.
- Build the frontend app that consumes the v2.0.0 API using React and redux.
- Support v1.0.0 of the system and make any improvements.
- Write scripts for data manipulation and extraction.

Tools I have used in Relish Careers

- Hosting: Heroku, Firebase
- Bitbucket (pipelines)
- AWS services administration: IAM, S3
- Scripting: Rails rake, heroku runner
- Pivotal tracker, Slack
- Message broker: RabbitMQ
- Error Reporting: Bugsnag

Languages I have used in Relish Careers

- Rails version 4.x and 5.x
- React version 16.x
- Redux
- Rspec
- Bootstrap
- Git

Professional Background

Andela (andela.com)
Nairobi
kenya

Software Engineer

10/2016 – present

We help companies build high-performing, distributed engineering teams with Africa's most talented software engineers.
